- b) Whenever a seizure is made, the Community Peace Officer making the seizure will, without delay, compile an Exhibit Report form listing the item or items with a full description of the item(s) to be contained in the body of the report.
- c) All items, whether seized by a Community Peace Officer or handed in to the office will be shown on an exhibit report.

It is anticipated that targeted use of peace officer resources focused on statistical areas of concern will enhance peace officer ability to have a positive effect in traffic safety in the community.

The Town of High Level as an Authorized Employer of Community Peace Officers shall have the authority for Emergency Response added to their Employer Authorization before peace officers may apply for this authority. * All situations where there is a possibility of an Emergency Response will be evaluated by the Peace Officer to continually assess the risk between providing services on-scene, and the increased risk to the Peace Officer and the Public while responding in an Emergency capacity. Public safety and the safety of the Peace Officer will remain the primary concern in all Emergency Response situations. Emergency Response may be utilized on one and two digit highways.

PURSUIT GUIDELINES

All Peace Officer employed by the Town of High Level Protective Services Department will adhere to the current policy set forth by the Solicitor General's Office as defined in the Peace Officer Manual as follows;

Peace Officer Manual Requirements

s. 24.7 Pursuits

Pursuit definition: A motor vehicle pursuit occurs when a peace officer follows a vehicle with the intent to stop or identify the vehicle or driver, and the driver, being aware of the peace officer's actions, fails to stop, and the driver initiates evasive action or ignores directions to stop/avoid apprehension.

A motor vehicle pursuit presents an extreme risk to public safety and shall not be conducted by any peace officer appointed under the *Peace Officer Act* Peace officers, other than those with full policing authority, are prohibited from engaging in pursuits by the Alberta Solicitor General and Public Security Motor Vehicle Pursuit Guidelines (2005) and this policy manual.

Upon encountering an individual who has chosen not to stop their vehicle when directed to do so, a peace officer will immediately cease all efforts to stop the vehicle. This will include turning off all emergency equipment and reducing speed. Contact, on an urgent basis, should be made with the police service of jurisdiction to advise them of the circumstances, providing a description of the vehicle and direction of travel.

A pursuit may involve high or low speeds and vehicles other than automobiles.

24.8 Closing the Distance

"Closing the distance" or "catch up situations"

In some cases an emergency response vehicle will attempt to close the distance on a suspected violator to further a law enforcement effort. These situations are not considered pursuits unless some overt action by the suspected offender suggests an attempt to avoid apprehension. This practice is commonly referred to as "closing the distance" or "catch up." In these situations an emergency response vehicle is being operated in a manner that is different from normal traffic patterns.

The *Traffic Safety Act* states: "a siren on an emergency vehicle shall be operated only when the vehicle is being used in response to an emergency."

Closing the distance is not normally considered an emergency. A peace officer involved in such a situation must continually evaluate all factors that involve public and officer safety. If the risk assessment indicates a risk to public safety the procedure shall be terminated.

iv. "Closing the distance" or "catch up"

Maneuvers may only be performed when there is a reasonable likelihood for apprehension of the suspected offender.

The paramount purpose behind those policy decisions is public safety. Failure to abide by these policies could expose the public to an unacceptable risk or the peace officer to legal action. Solicitor General and Public Security views the issue of motor vehicle pursuits involving peace officers very seriously and will actively follow up on any pursuits involving peace officers with a view to ensuring that enforcement activities are conducted within legislated constraints and that corrective action is taken where necessary.

24.9 Spike Belts/Roadblocks

No peace officer will participate or assist in the deployment of a spike belt or other similar device. No peace officer will participate or assist in the implementation of a roadblock technique.

Peace Officers, who encounter a vehicle that has initiated evasive action or has fled, shall not continue to follow the offender vehicle regardless of distance. Should an offender choose to flee before identification has been made of the vehicle, driver or license plate, all Peace Officers shall cease any effort to identify the offender vehicle and contact the Police Service of jurisdiction on an urgent basis and advise them of last known direction of travel.
